

ABOUT WHY?

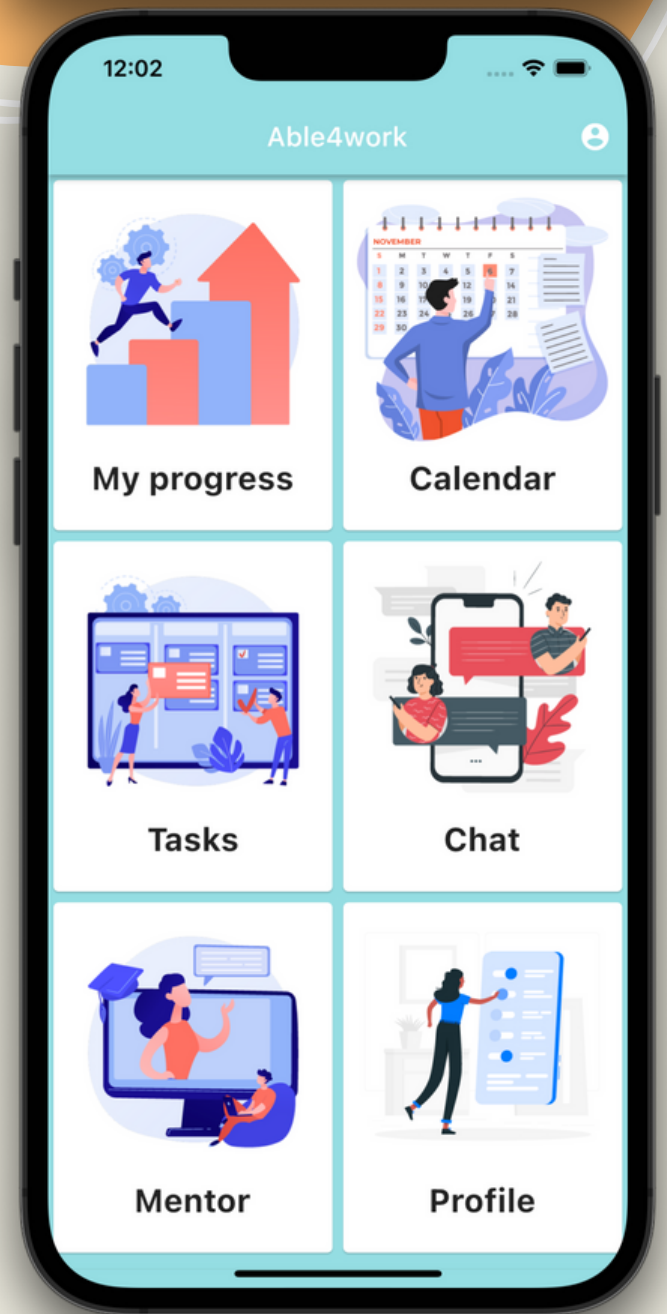

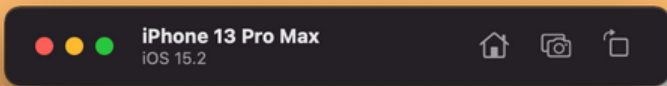

app **ABLE4WORK**

www.able4work.com

The **ABLE4WORK app** is an online tool which facilitates contact between social workers/mentors and young adults; and engages them in their job search and training research through the use of mobile phones.

ABLE4WORK has emerged in response to COVID-19, in order to virtually carry out the different stages of a job search, through challenges that the young persons can follow with their mobile phones to find opportunities, self-assessment, resources and support.

THE APP

Combines career guidance with digital gaming aspects

Supports the job search process that young people perform with their mentors

The youths are the protagonists of their job search process, promoting responsibility

Promotes an active job search routine and internalisation of knowledge learned with mentors

HOW?

If you are a **youth worker** who works as mentor with disadvantaged youths and NEETs performing socio-labour integration.

OR

you are **between 18-35 unemployed** or NEET then download the App at:
